

Arne Hygen Tørnkvist

Executive Vice President
and Deputy CEO

Arne Hygen Tørnkvist is the Executive Vice President & Deputy CEO of Altera Infrastructure.

In 2019, Mr. Tørnkvist was appointed Executive Vice President of Altera Infrastructure Group leading the development and execution of major projects.

Prior to joining Altera, Mr. Tørnkvist was the owner and Managing Director of Aegir, an FPSO asset development and management consultancy. With more than three decades of experience in the FPSO industry, he has built extensive expertise across project development, project execution, and offshore operations.

Mr. Tørnkvist was co-founder and CTO of BWO, an FPSO company originally based in Norway. In 2006, he became co-founder, CTO and later CEO of Aker Floating Production. From 2012 to 2016 he served as Director of the Board of Aker Floating Production.

Mr. Tørnkvist holds a master's degree in Marine Engineering and Naval Architecture from NTNU in Trondheim, Norway, and has completed executive education programs at INSEAD in France.
